

# IBM Domino Applications on Cloud

## What is Domino Applications on Cloud?

You are probably aware that there has been much excitement in the IBM Domino community recently with the announcements of Notes / Domino V10 later this year as well as release 11 in 2019 #Domino2025.

In addition to this IBM is pleased to announce the availability of IBM Domino Applications on Cloud.

We would like to invite you to a webinar introducing this new service and the value that can be gained from moving your Domino applications into the IBM Cloud.

## Agenda

- Introductions

- Quick #domino2025 update

- What is Domino Applications on Cloud?

  - Simple pay per app subscription model

  - Allowing customers to leverage valuable applications

  - Focus on business results not maintenance

  - Have skills on standby and use as needed

  - Expand and contract as Needed
